

TECHNICAL MANUAL

Digital and analog modules

PRO-Logic EKF

1 DESCRIPTION

The digital/analog modules for the programmable controller PRO-Logic are designed to expand the number of inputs/outputs and connect digital and analog signals to the head module (controller). The digital/analog modules for the programmable controller PRO-Logic comply with IEC 61131-2:2017.

2 TECHNICAL DATA

Table 1 - Power supply characteristics

Characteristics	Value
Voltage	24 V DC [20,4...28,8 V]
Power consumption	<4,8 W
Max. operating time with power failure	10 ms

Table 2 - Operation conditions

Characteristics	Value
Operating temperature	0...55 °C
Storage temperature	-20...+70 °C
Humidity	5...95% RH [no condensate]
Noise immunity	±2500 V AC, ±1000 V DC
Degree of protection	IP20

Table 3 - DI

Characteristics	Value
Signal type	Digital, PNP / NPN
Resistance	4,3 kOhm
Max. current	10 mA
Filter	6,4 ms (default), ranges from 0,8 to 51,2 ms
Insulation type	Optic coupler for every channel
Indication	LED (for every signal)
Power	24 V DC

Table 4 - DO

Characteristics	Value		
Signal type	Electromagnetic relay	NPN-transistor	
Load	Resistive	2 A	0,5 A
	Inductive	50 VA	5 W (24 V)
	Lighting	100 W	12 W (24 V)
Voltage	≤ 250 V AC ≤ 30 V DC	≤ 30 V DC	
Max. load	5 A (250 V AC)	1 A (for 10 s)	
Response time	ON 10 ms OFF 5 ms	ON 10 µs OFF 120 µs	
Insulation	Electro-mechanical	Optic coupler for every channel	
Indication	LED (for every signal)		

Table 5 - High-speed inputs/outputs (HSI/HSO)

Characteristics	Value
Max. frequency	200 kHz

Table 6 - AI

Characteristics	Value			
Signal type	0...10 V	0...5 V	1...5 V	0...20 mA and 4...20 mA
Resolution	2,5 mV	1,25 mV	1,25 mV	5 µA
Resistance	6 MΩ			250 Ohm
Max. signal value	±13 V			±30 mA
Indication	LED (for every signal)			
Response time	5 ms / 4 channels			
Signal form	12 bit [0...32000]			
Relative error	0,2%			
Insulation	Optic coupler for every channel			

Table 7 - AO

Characteristics	Value			
Signal type	0...10 V	0...5 V	1...5 V	0...20 mA and 4...20 mA
Resolution	2,5 mV	1,25 mV	1,25 mV	5 µA
Resistance	1 kΩ (10 V)	≥ 500 Ohm (10 V)		
Max. signal value	±13 V			±30 mA
Indication	LED (for every signal)			
Response time	3 ms			
Signal form	12 bit [0...32000]			
Relative error	0,2%			
Insulation	Optic coupler for every channel			

3 DIGITAL AND ANALOG MODULE VERSIONS

Table 8

Item code	Name
EMF-D-8X	Digital input module EMF 8 PRO-Logic EKF
EMF-D-8Y-R	Digital output module EMF 8 PRO-Logic EKF
EMF-D-8Y-N	Digital output module EMF 8 N PRO-Logic EKF
EMF-D-4X4Y-R	Digital I/O module EMF 4/4 PRO-Logic EKF
EMF-D-4X4Y-N	Digital I/O module EMF 4/4 N PRO-Logic EKF
EMF-D-16X	Digital input module EMF 16 PRO-Logic EKF
EMF-D-16Y-R	Digital output module EMF 16 PRO-Logic EKF
EMF-D-16Y-N	Digital output module EMF 16 N PRO-Logic EKF
EMF-D-8X8Y-R	Digital I/O module EMF 8/8 PRO-Logic EKF
EMF-D-8X8Y-N	Digital I/O module EMF 8/8 N PRO-Logic EKF

11 INDICATION

PWR: power, green. Steady ON - power ON. OFF - power OFF.

LINK: multi-status indicator (red/yellow/green). For details, refer to the table below.

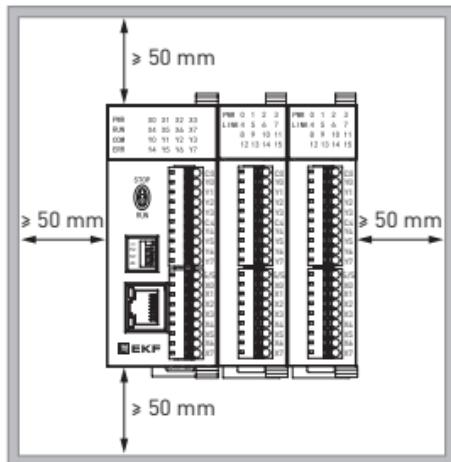

Table 10

Troubleshooting	Value	LINK LED status
Normal operation. No actions required	No link with module	OFF
	Controller has detected module, but is not communicating with it	Steady green
	Controller is communicating with module	Flashing green
Connect a higher power supply	Higher power supply is required	Flashing yellow
Correct the program and reload it to the controller	Module firmware error	Flashing red
Contact the manufacturer	Device error	Steady red

12 INSTALLATION AND CONNECTION

Install the programmable controller and digital/analog modules in the enclosed cabinet. Leave 50 mm gaps between the device and all sides of the cabinet for heat dissipation.

Mount the digital/analog modules to a standard 35 mm DIN rail. Connect the programmable controller to the expansion modules concurrently via the built-in port (to the controller's right).

Power supply, input and output signals shall be connected with clamp terminals, max. wire cross-section of 1 mm².

WARNING! Follow the sequence for connecting the digital/analog modules to the controller!
The interface modules shall be installed first in line.

13 DELIVERY SCOPE

Digital/analog module - 1 pc.

Terminal block - 1 or 2 pcs. (depends on version)

Technical manual - 1 pc.

14 SAFETY REQUIREMENTS

Do not operate digital/analog modules with visual mechanical damage. Expansion modules shall be operated and serviced only by qualified personnel.

Failure to follow the guidelines herein may result in severe injuries and equipment damage.

15 TRANSPORTATION AND STORAGE

The digital/analog modules can be transported by any means of enclosed transport that ensures protection of packed products from mechanical and atmospheric impacts.

The digital/analog modules shall be stored in the original package indoors at the ambient temperature from - 20° C to + 70° C and relative humidity of max. 98% at +25°C.

17 DISPOSAL

Life-expired and failed products shall be disposed of in compliance with the laws and regulations in force in the territory of product sale. To dispose of the product, send it to an authorized company for recycling in compliance with the national and local laws and regulations in force.

16 MANUFACTURER'S WARRANTY

The manufacturer guarantees the products comply with the declared characteristics, provided that the consumer follows the operation, transportation and storage conditions.

Warranty period: 3 years from the date of sale.

Shelf life: 3 years from the date of manufacture.

Service life: 10 years.

Manufacturer: for information, refer to the product package.

Importer and EKF trademark service representative:

EKF ELECTRICAL SOLUTION – FZCO, Dubai Silicon Oasis, DDP, Building A2, Dubai, United Arab Emirates.

Importer and EKF trademark service representative on the territory of the Russian Federation: 000 «Electroresheniya», Otradnaya st., 2b bld. 9, 5th floor, 127273, Moscow, Russia. Tel.: +7 (495) 788-88-15.

Importer and EKF trademark service representative on the territory of the Republic of Kazakhstan: T00 «Energoresheniya Kazakhstan», Kazakhstan, Almaty, Bostandyk district, Turgut Ozal st., 247, apt 4.

15 CERTIFICATE OF ACCEPTANCE

The digital/analog module has been manufactured in compliance with laws and regulations in force and has been approved for operation.

Date of manufacture:

For information, refer to the product package.
